Are your church communications accomplishing all you want them to?

Are they growing your church in numbers and your

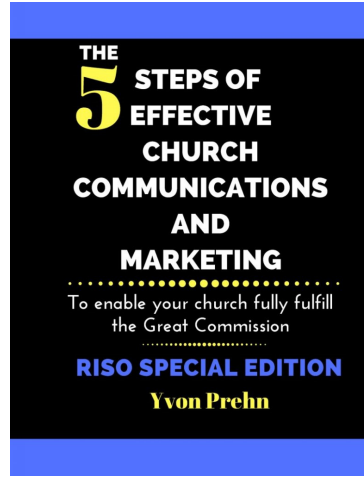

people in spiritual maturity?

Though most churches today produce great-looking communications, few churches feel like they are communicating as well as they would like. People don't attend events; if they attend Sunday morning or a special outreach they don't show up other times.

This NEW book by Yvon Prehn, authority on church communications and marketing, (www.effectivechurchcom.com) gives you an exciting step-by-step process that will make your communications more effective by giving you a vision, plans, and strategies any church can implement no matter what its size or budget.

We want to help you be successful in your church communications and we want to give you a FREE book.

Please contact us for a no-obligation visit when we can deliver yours to you.
